

ALIGNED ALIGNED ALIGNED WITH YOU

barbas.

A Barbas is all about lines

They provide structure, direction, atmosphere, and individuality. We see it as a game. When played well, it leads to new insights. It breaks conventions. They define the core of our brand and shape it into one powerful whole. So you can see, feel, and most importantly, experience who we are. That works differently for everyone. A Barbas can be fully customized to suit you. There are up to thousands of possible combinations. Completely handmade. In the Netherlands. That not only gives you freedom of choice but also emphasizes your identity.

Our lines

You recognize a Barbas by its distinctive play of lines. The 8mm thick steel frame brings craftsmanship to a new level. Its harmonious proportions and premium finish make each Barbas a true eye-catcher.

Dutch craft

Every Barbas is carefully designed, developed, and handcrafted in the Netherlands, down to the smallest detail.

Timeless design

Our lines are created to stand the test of time - so you can enjoy them for years to come.

Custom-made

At Barbas, custom-made truly means custom-made. Each model comes in various sizes, and the frames can be personalised down to the last millimetre - so everything fits your style perfectly.

Personalisation

A Barbas is customised to your wishes. With a wide range of options and accessories, you create the perfect match between your identity and your living space.

Our line-up

Wood

Gas

Free hanging fireplaces 16 products

A suspended stove is stylishly attached to the wall, creating an elegant, floating effect. This airy design adds an extra sense of space to any room.

Plateau fireplaces 33 products

A hearth stove is designed to be placed on a plateau that you can create yourself. It is a hybrid between a freestanding stove and a built-in fire. Since the stove is positioned on a hearth, the entire design remains visible.

Freestanding fireplaces 40 products

A freestanding stove can be flexibly placed in the space.

Built-in fireplaces 71 products

With a built-in fire integrated into the wall, you create a stunning design where the fire seamlessly blends into the interior.

Outdoor BBQ fireplaces 1 product

The BBQfire is a garden piece that effortlessly transforms from an elegant BBQ to a beautiful fire for unforgettable moments.

WOOD

Wood fireplaces

Choose a Barbas wood fireplace if you are looking for natural warmth and a beautiful, lively flame that no other heat source can match. The well-designed combustion system delivers powerful, efficient combustion and optimal heat output using less wood. You heat independently of other energy sources and create your own reliable source of warmth — fully customised to you.

Free hanging fireplaces

BOX²⁵

The original, sleekly designed fireplace that became a new design icon and inspired the market.

- Bold and harmonious composition
- Sharp 90-degree angles in 8 mm steel, seamlessly connected
- Closure with a handcrafted saddle leather handle

MINI'S

Barbas mini's

For various Barbas BOX concepts, we have now developed a smaller version: the minis. Due to their compact size, they are ideal for passive homes where limited heating power is desired, but where you still want to enjoy the luxury and ambiance of an elegant wood stove. With minimal output, they provide maximum experience.

- Nominal output of only 3.8 kW
- Air-tight combustion technology
- Flue gas outlet of Ø 100 mm
- Ideal for passive homes
- Available in various concepts

FRAMES

Custom classic frame

We introduce a custom classic frame. This allows you to achieve the perfect finish for your fireplace. The frame is customised to your preferences, ensuring the fireplace fits seamlessly into the space.

Custom 3D frame

Barbas introduces custom 3D frames. These frames can be dimensioned according to your preferences. The result? A harmonious, sleek integration that perfectly complements any interior. With a custom 3D frame, you not only create a refined finish but also give the fire its own identity. Let your fire blend seamlessly with your living space and enhance the stylish ambiance that suits your personal taste.

barbas' Choice

Your Barbas fireplace, assembled by our experts, immediately available!

3 very good reasons why you should choose a barbas' Choice

- **Recommended by experts**
Driven by their years of experience in developing designer fireplaces, our experts have put together a beautiful selection of fireplaces especially for you.
- **Immediately available**
Because we can produce these fireplaces in advance, we can guarantee a fast delivery time.
- **Easier to choose**
Barbas' Choice offers a wide range. Because we work with fixed configurations, we make it easier to choose. This way, there is always a fireplace that suits your situation.
